

Lumora Home Technologies - Complaint Handling Policy

Document ID: CMP-POL | Version: 1.0 | Type: Policy | Status: Active | Category: SERVICE_QUALITY

Effective Date: 2026-01-01

1. Purpose

This policy sets the standards every Lumora team follows when receiving, handling and closing customer complaints.

2. Receiving Complaints

2.1 Complaint Channels

Customers may complain through the web form, e-mail, live chat or by uploading a written complaint. All channels are handled in the same queue.

2.2 Acknowledgement

Every complaint is acknowledged within the response time defined for its priority in the Service Level Agreement (SLA-POL).

3. Communication

3.1 Communication Standards

Each complaint has one named contact. The customer receives an update at least every 2 business days until the complaint is closed.

3.2 Business Customers

Business customers are given a dedicated business account contact for every complaint.

4. Repeat and Unresolved Complaints

4.1 Repeat Complaints

A new complaint about an issue the customer has raised before must be linked to the earlier complaint.

4.2 Unresolved Complaints

When a customer says a previous complaint was not resolved, the case goes to Supervisor Review. The supervisor reviews why the first resolution failed.

4.3 Third Complaint on the Same Issue

A third complaint about the same unresolved issue is escalated to the Department Manager.

5. Staff Behaviour

5.1 Behaviour Complaints

Complaints about staff behaviour are acknowledged with an apology. The staff member, date and channel are recorded and the case is forwarded to the team supervisor.

5.2 Serious Misconduct

Complaints about threats, harassment, discrimination or abuse by staff are escalated to the Department Manager.

6. Prohibited Conduct

6.1 Prohibited Conduct

Staff must never blame the customer, share another customer's information or close a complaint without the customer's confirmation.
